The Baby Boom at Vihula Manor Eco-Farm

All the kids – both the small ones and the adult ones – are interested in our Eco-Farm, located in the 19th century Horse Stable. You will love to watch the farm animals such as horses, cows, sheep, rabbits and chickens.

Our babies will be born in early April on the farm. We already have 8 adorable bunnies and 6 little lambs crossed with Wensleydale (UK) and Estonian Whitehead sheep. The Wensleydale is a large long wool sheep, wool from this breed is acknowledged as the finest lustre long wool in the world. The new lambs should come with pretty curly wool and pink ears.
