

## Spring activities at Vihula

Despite the abundance of snow and frost, there are some signs of spring at the Vihula Manor Country Club & Spa. In April we have planned a diverse event programs, where everyone will surely find something suitable. You can nourish your spirit and soul with Rakvere Theatre's wonderful show "Spring

and summer .. and". For the body and health we organize sporty weekend with Zumba and yoga classes. Also we offer different concerts and hand craft workshops.

Our skin is dry and vulnerable due to the cold and long winter. It's worth the time to book our eco-spa and pumper your skin with equinox facial treatment and get some spring body care secrets from our spa staff.

We are preparing to open Vihula Manor Holiday Village.

Even though the snow has not yet melted, we have already developed some fascinating packages and activities to make each guest's stay really special at Vihula. The grand opening of the Holliday Village will be on the 11th of May.

Although in May last year we announced, that Vihula Manor is completely refurbished and ready, probably it will never be finished, same, like the city of Tallinn. There are a lot of ideas how to further develop the manor complex. This spring we have started to renovate the ruined part of Vodka Distillery, and after construction there will be 7 more guest rooms. Our employees will also have their own house, where it will be possible to relax after a hard day's work and it won't be necessary to ride home at night. Vihula Manor Eco-Farm will get some small Dexter calves and horses in addition to already existing sheep, rabbits, chickens and roosters. There are a lot of interesting activities and guests are always welcome at the Vihula Manor Country Club & Spa!

### Bright spring sun brings flower sea to the Vihula Manor Eco-SPA

Between the seasons in the new environment our skin becomes soft and sensitive. Pamper your body and soul with equinox facial treatment, which provides the skin with the necessary nutrients to cope with the changing external conditions.

Autumn-winter ritual with a ramzani-flower gives you a warming, soothing and nourishing result. Spring-summer ritual with an edelweiss flower has a cooling and moisturizing effect. The treatment begins with an introductory neckline massage. Facial skin cleansing and exfoliation is followed by a thorough relaxing face, neck and neckline massage and soothing and refreshing lotus mask. Mask reduces fatigue and restores the skin's suppleness.

#### SPECIAL OFFER

*Make a nice spa gift to your face after a cold winter*  
**Equinox facial treatment 60 min**  
**55€**

### The Baby Boom at Vihula Manor Eco-Farm

All the kids – both the small ones and the adult ones – will certainly be interested in Vihula Manor Eco-Farm, located in the 19th century Horse Stable. You will love to watch the farm animals such as horses, cows, sheep, rabbits and chickens.

Our beebies on the farm will be born in early April. We already have 8 adorable rabbits and 6 small mixture of Wensleydale (UK) and English Whitehead calves. Wensleydale breed is known for long curly hair, which is commonly a better quality wool. The new born generation should come with pretty curly hair and pink ears.
